CITY GUIDE

Hódmezővásárhely

Foreword

VÁSÁRHELY IS A GOOD PLACE, IT IS THE CITY OF FREEDOM!

Welcome to our city and I hope that, like us locals, you will love our city.

You are holding in your hands our travel guide, which will help you to discover the built heritage of our city, its most important institutions, its pride and glories.

What you will not necessarily find out from this brochure is that Vásárhely is one the safest cities with county rank, and is home to an increasing number of families with young children, which we are trying to make more and more attractive through our family-friendly developments. We have spent 100 million HUF on playgrounds and renewed them in the last two years, our spa has giant slides for anyone who wants to have fun, and we also pay a lot of attention to our nurseries and kindergartens.

We are greening up, because the people of Vásárhely are particularly concerned about environmental awareness, and we are protecting our environment with sustainable green areas and selective waste bins already placed everywhere.

We are also protecting our built heritage, in recent years we have doubled the number of our protected buildings, you can learn about their history and architecture with the help of QR codes on their walls.

The city has been involved in many developments that make life easier and more beautiful for the people who live here, and that also encourage tourists to return. We have achieved all this by managing the city's money in a transparent and honest manner, and it is no coincidence that the risk of corruption has fallen from the previous 90% to less than 10%.

I encourage you to come back to our city as often as possible, to experience the freedom of Vásárhely and the kindness of its locals!

With friendship: **Péter Márki-Zay, mayor**

About the city

In our days Hódmezővásárhely, with the second largest administrative area in the country, is a significant economic, cultural and art centre of the Southern Great Plain Region. There are about fifty thousand inhabitants living on forty-eight thousand hectares of land. The city received independent municipal rights in 1873 and obtained county rank in 1991.

Since the change of regime, the development of the city has been outlining to be worth living in, keeping its traditional values and local characteristics in our globalizing world. The infrastructural development made during the years significantly transformed the aspect of the city and besides this, its cultural and artistic life is showing prosperity. The main aim of Hódmezővásárhely is to offer pleasant and refined recreation and the possibility of quality city-life both for local inhabitants and visitors.

Sights

1. VÁROSHÁZA (TOWN HALL)

Kossuth tér 1.

The Town Hall, designed by Lajos Ybl, was built in eclectic style in 1894. The building, still the administrative centre of the city, may be visited between 8.00 a.m. – 4.00 p.m. on weekdays. The ceremony hall and the tower can be visited with a special permission at a time agreed on in advance.

2. ELSŐ VILÁGHÁBORÚS EMLÉKMŰ (MONUMENT OF WORLD WAR I)

Between 1914-1918 fifteen thousand men went into war to serve the country. János Pásztor's statue in front of the entrance of the Town Hall commemorates those men.

3 FEKETE SAS RENDEZVÉNYHÁZ (BLACK EAGLE EVENT HALL) – Kossuth tér 3.

In the 19th century a ground floor inn stood on the same spot, which was later extended into a multi-storey building. On the exterior the building is an eclectic style mainly with baroque and rococo elements while the ornamented rendering is decorated with fine floral adornments. The interior of the building deserves attention as well: gilded, ornamented rendering, large mirrors of the ball room, plaster reliefs, secessionist boxes.

The ball room is open to visitors during the opening hours of the Café.

4 A „NAGYTAKARÉK” ÉPÜLETE (THE BUILDING OF THE SAVINGS BANK) Kossuth tér 5.

The secessionist building was completed in 1907, designed by Miksa Müller. On the top of the cupola the statue of Mercury, the god of merchants in Roman mythology, is standing.

5 KASZINÓ (CASINO) – Zrínyi u. 1.

In 1896 the Casino Society of Hódmezővásárhely decided to build its own clubhouse. Gyula Sándy was commissioned to design the building, which was completed in 1901. Because of the ogee arch pediment and rounded windows it is one of the most distinctive buildings of the city.

6 ALFÖLDI GALÉRIA (ALFÖLDI GALLERY) Kossuth tér 8.

The Alföldi Galéria is a gallery that was built between 1820-1822. The autumn exhibition is a unique art event in Europe as there is no other exhibition that has been organised every year since 1954. On the first Sunday of every October the Őszi Tárlat, an arts display of national importance, has habits of grand opening here since 2006.
